

# 2026 北京育英学校高一（上）期末

## 英 语（A 班）

2026. 1

（考试时间 90 分钟 满分 100 分-含听力）

本试卷共 4 页。考生务必将答案作答在答题卡上，在试卷上作答无效。

第一部分：知识运用（共两节，30 分）

第一节 完形填空（共 10 小题；每小题 1.5 分，共 15 分）

阅读下面短文，掌握其大意，从每题所给的 A、B、C、D 四个选项中，选出最佳选项，并在答题卡上将该项涂黑。

On the morning of my first marathon, I woke up before my alarm and ate a classic runner's breakfast. I had slept eight hours. My unreliable left knee wasn't bothering me. I was \_\_\_\_1\_\_\_\_.

Then my girlfriend, Louisa, knocked on the door, asking whether I had checked my email. Race officials sent an email at 5 a. m. announcing The Twin Cities Marathon in Minneapolis and St. Paul had been \_\_\_\_2\_\_\_\_ due to record high temperatures.

While I understood why the race organizers didn't want to put runners at \_\_\_\_3\_\_\_\_, I also knew that I had trained in the baking and humid Washington D. C. all summer. If I could start earlier than planned and finish around noon, I'd miss the worst \_\_\_\_4\_\_\_\_ of the day.

I went to the starting line and saw many runners despite the cancellation. I joined a group of local runners who knew the route. While running, I was overfilled with \_\_\_\_5\_\_\_\_ to still see neighbors who gathered outside their houses \_\_\_\_6\_\_\_\_ out bottles of water as they watched runners go by. The runners and supporters made the race feel like a real marathon, during which the shared goal of reaching the finishing line and the affirmations from the crowds made me believe I could run the \_\_\_\_7\_\_\_\_ race.

The last one mile of the route was downhill. By that point in the race, my legs felt like jelly. But from the top of the hill, I could see dozens of supporters cheering runners home, which \_\_\_\_8\_\_\_\_ me to move on. When my smart watch finally ticked to "26.2" miles, I called out "I'm done" to Louisa, who had been giving a much needed \_\_\_\_9\_\_\_\_ along the way. I let out a dry sob and gave Louisa a hug. After months of training, the unexpected emotion felt like a total release.

My first marathon was canceled, but I ran 26.2 miles \_\_\_\_10\_\_\_\_.

- |               |               |                |                |
|---------------|---------------|----------------|----------------|
| 1. A. ready   | B. stuck      | C. unfortunate | D. surprised   |
| 2. A. put off | B. called off | C. wiped out   | D. carried out |
| 3. A. rest    | B. will       | C. risk        | D. ease        |
| 4. A. jam     | B. heat       | C. mood        | D. drought     |
| 5. A. joy     | B. tension    | C. fear        | D. peace       |
| 6. A. picking | B. clearing   | C. pointing    | D. handing     |
| 7. A. regular | B. advanced   | C. entire      | D. competitive |
| 8. A. forced  | B. expected   | C. required    | D. encouraged  |
| 9. A. speech  | B. boost      | C. solution    | D. message     |
| 10. A. late   | B. soon       | C. anyway      | D. somewhat    |

第二节 语法填空（共 10 小题；每小题 1.5 分，共 15 分）

## A

阅读下列短文，根据短文内容填空。在未给提示词的空白处仅填写 1 个适当的单词，在给出提示词的空白处用括号内所给词的正确形式填空。

Nowadays, people can create their own avatars. 11 (use) avatars on social media, they can have new personalities and images. People hold different opinions on the use of them. One 12 (argue) is that young people will be at a risk because they can be cheated by others online. But other people believe that till now using avatars 13 (become) a necessity in people's life and we needn't be too worried about it as long as people use them in a proper way.

## B

阅读下列短文，根据短文内容填空。在未给提示词的空白处仅填写 1 个适当的单词，在给出提示词的空白处用括号内所给词的正确形式填空。

The eight-day-long holiday of 2023 began with the Mid-Autumn Festival on Friday and included the Oct. 1 National Day. It was 14 people called the longest Golden Week. Big cities like Beijing and Shanghai were favored destinations. Smaller cities, such as Chengdu and Xi'an, were also popular. In Guangzhou and Shenzhen, extra overnight high-speed trains 15 (schedule) to cope with the travel increase during the long holiday. So far, both domestic and overseas travels have recovered significantly with domestic travel accounting 16 nearly three quarters of the total.

## C

阅读下列短文，根据短文内容填空。在未给提示词的空白处仅填写 1 个适当的单词，在给出提示词的空白处用括号内所给词的正确形式填空。

Billions of poor people around the world depend on the use of wood for cooking. And 17 they take more and more firewood from wild areas, they are destroying habitats around the world. In 2023, experts predicted that a large amount of forests 18 (destroy) throughout the world. Wood collection is one reason why many animals have become endangered.

This is why Dr. Metcalf, a volunteer 19 aim is to help stop the present situation, spends each summer in Africa. He wants to teach women and children in villages how to cook with the sun. He helped create Solar Cookers International, 20 introduces solar cookers to developing countries and teaches people how to use them.

**第二部分：阅读理解（共 11 小题；每小题 2 分，共 22 分）**

## A

### Get involved with our research

Some of our research projects rely on the generosity of people like you. Whether it's using your home PC, taking part in a clinical trial, or simply volunteering your time for a study, you may be able to contribute to some of the ground-breaking projects which make the University of Oxford a world leader in research. Watch this space for ways in which you could get involved.

### Seeking poor sleepers for insomnia (失眠) research

Trouble sleeping? Researchers from the Sleep & Circadian Neuroscience Institute are evaluating different interventions aimed at improving sleep. We are looking for poor sleepers between the ages of 18 and 65. Participation will involve spending overnights in the sleep laboratory at Oxford, monitoring your sleep/wake cycle, and completing computerised tasks. If you are interested, please contact the research team at

### Volunteers with lazy eye wanted

We are looking for volunteers with a history of lazy eye to take part in our brain scanning study. We are looking for healthy volunteers aged 18-45 with a history of lazy eye. You will also be asked questions about your medical history to check your suitability for an MRI scan. Call 01865 223622 for more information.

### Oxford Vaccine Group

The Oxford Vaccine Group is an independent multi-disciplinary (多学科的) clinical trials group. OVG works towards the goal of developing new and improved vaccines for the prevention of infection in adults and children, enhancing the understanding of immunity and studying the epidemiology of infectious diseases. To get more information, please see the OVG website.

### Oxford Experimental lab for the Social Sciences

The Oxford Internet Institute, together with the Business School, is recruiting individuals to participate in computer-based experiments involving online surfing behavior as well as economic and political decision-making. We pay our subjects well, there are no special skills required and you don't have to come to the lab in person. Contact us at [socialscience.study@ox.ac.uk](mailto:socialscience.study@ox.ac.uk) for more information.

21. What is the main purpose of the passage?

- |                                        |                                                 |
|----------------------------------------|-------------------------------------------------|
| A. To offer medical help to patients.  | B. To look for experienced researchers.         |
| C. To introduce new research programs. | D. To recruit volunteers for research projects. |

22. The goal of oVG is to \_\_\_\_\_.

- |                               |                                 |
|-------------------------------|---------------------------------|
| A. carry out clinical trials  | B. produce better vaccines      |
| C. learn more about infection | D. study the causes of diseases |

23. You can finish the experiment on your home PC if you join \_\_\_\_\_.

- |                            |                               |
|----------------------------|-------------------------------|
| A. Oxford Vaccine Group    | B. Insomnia research group    |
| C. Oxford Experimental lab | D. Brain Scanning study group |

### B

My daughter was being thrown out of the sixth grade. The teacher said, "She may not be up to what we're trying to accomplish." He was really saying she didn't have the intelligence. I got mad because I knew she was smart, just as my father had known I was smart when I was failing in school. We had her tested. I decided to get myself tested as well, and found that the troubles she was having were exactly what I had had — dyslexia. By then I was a successful television writer, and had won an Emmy Award for "*The Rockford Files*."

If I had known earlier that something beyond my control could explain why I was a low achiever, I may not have worked so hard in my late 20s and early 30s. I was writing and writing. I was working for no other reason than to hear people praise me, because I did badly in all my courses.

I once asked a friend who had always gotten an A, "How long did you study for this?" He said, "I didn't. I just glanced at it." So he must be smarter. I began to ask, "What will happen to me when I'm not good at anything?" Despite my doubts, I did become successful, and people now say to me, "So you've overcome dyslexia."

No. You don't overcome it, you learn to compensate for it. Some easy things are very hard for me. Most people who go through college read twice as fast as I do. I avoid dialing a phone if I can, because I sometimes have to try three times to get the number right.

Despite my weaknesses I view dyslexia as a gift, not a curse (诅咒). Many dyslexics are good at right-brain,

abstract thought, and that's what my kind of creative writing is. And I can write quickly, and can get up to 15 pages a day. Writing is my strength.

The real fear I have for dyslexic children is not they have to struggle in school, but that they will quit on themselves before they get out of school. Parents have to create victories for them, whether it's music, sports or art. You can make your dyslexic child able to say, "Yeah, reading is hard. But I have other things I can do."

24. The writer decided to get himself tested as well because he\_\_\_\_\_.

- A. wanted to know if they had the same problem
- B. didn't believe his daughter had the problem
- C. had to take a regular medical examination
- D. accepted that his daughter was not smart

25. We can learn from the second paragraph that the writer\_\_\_\_\_.

- A. struggled and got better grades
- B. didn't work hard when he was young
- C. was praised for overcoming dyslexia
- D. was thankful not knowing of dyslexia earlier

26. According to the passage, a dyslexic person\_\_\_\_\_.

- A. is less intelligent
- B. always fails in school
- C. reads more slowly than normal people
- D. performs worse in left-brain activities

27. What can we learn from the story?

- A. Clumsy birds have to start flying early.
- B. God shuts one door but opens another.
- C. Never judge a person by his appearance.
- D. No one can make a good coat with bad cloth.

## C

### Training the Brain

People who can accomplish unbelievable tasks, such as memorizing thousands of random numbers in under an hour, state that they just have normal brains. Some memory superstars compete in Olympic-like World Memory Championships. These mental athletes, or MAs for short, can memorize names of dozens of strangers in a few minutes or any poem handed them. Ed Cooke, a 24-year-old MA, explains they see themselves as participants rescuing the long-lost art of memory training. These techniques existed not to recall useless information, but to cut into the brain basic text and ideas.

A study in the journal *Nature* examined eight people who finished near the top of the World Memory Championships. The scientists examined whether their brains were fundamentally different from everyone else's or whether they were simply making better use of memorizing abilities we all possess. They put the MAs and control subjects into brain scanners and had them memorize numbers and photographs. The result surprised everyone. The brains of the MAs and those of the control subjects were indistinguishable. On every test, the MAs scored in the normal range. However, when the scientists examined what part of the brain was used during a memory activity, they found the MAs relied more heavily on areas in the brain involved in spatial memory.

MAs offer an explanation: anything can be fixed upon our memories and kept in order by constructing a building in the imagination and filling it with pictures of what needs to be recalled. Dating back to the fifth century, the building is called a memory palace. Even as late as the fourteenth century, when there were copies of any text, scholars needed to remember what was read to them. Reading to remember requires a different technique than

speed reading. If something is made memorable, it has to be repeated. Until relatively recently, people read only a few books intensively (细致地) again and again, usually aloud. Today we read extensively, usually only once and without continuous focus.

So the great difference is the ability to create impressive pictures in mind and to do it quickly. Using memory palaces, MAs create memorized pictures. For example, recombine the pictures to form unforgettable scenes such as the ways through a town. One competitor used his own body parts to help him memorize a 57,000-word dictionary.

Anyone who wishes to train the mind needs first to create fantastical palaces in the imagination. Then they should cut each building into cubbyholes for memories. In a short amount of time, they will notice improvement with remembering things. To keep the skill sharp, MAs deliberately empty their palaces after competitions, so they can reuse them and they recommend that beginners do the same.

28. We can learn from Paragraph 2 that a mental athlete \_\_\_\_\_.

- A. owns a brain that is larger in size
- B. shows a gift in mental ability tests
- C. uses the memorizing technique better
- D. depends less on the areas that control spatial memory

29. Why does the author mention “speed reading” in Paragraph 3?

- A. To discuss the memorizing technique in the fifth century.
- B. To give the reason why people read only a few books carefully.
- C. To explain the text fourteenth century scholars had to remember.
- D. To compare the type of reading nowadays with that of earlier times.

30. What can be inferred from Paragraph 4?

- A. There is a variety of unforgettable scenes.
- B. Memory palaces can be quickly forgotten.
- C. Impressive pictures are in actual buildings.
- D. One person probably has 57,000 body parts.

31. What does the underlined word “cubbyholes” in the last paragraph probably mean?

- |                      |                       |
|----------------------|-----------------------|
| A. Small spaces.     | B. Black holes.       |
| C. Technical skills. | D. Different numbers. |

### 第三部分 书面表达（共两节，27分）

#### 第一节 阅读表达（共4小题；第32、33题各2分，第34题3分，第35题5分，共12分）

阅读下面短文，根据题目要求用英文回答问题。

Computers, smartphones, and audio players are an essential part of students' everyday lives. That means that whenever students are doing homework, they are going to be faced with the problem of using their devices for purposes other than learning. Instead of concentrating on one task, they are performing multiple tasks.

According to the research by Larry Rosen, published in the journal *Computers in Human Science*, students spend up to 45% of their homework time on various tasks unrelated to their studies. Students often get distracted(分神) by their phones or use their laptops for unauthorized(未经许可的) activities. Often, students think that they are able to multitask effectively, without sacrificing their studies. However, the research shows that it is true in only 5% of all cases.

But why do teenagers multitask? The answer is simple: multitasking makes us feel good. As the research indicates, the entertainment gained from secondary activities during studies makes learners feel better emotionally. Watching TV or talking to your friends by email is pleasant and helps students fight boredom while doing homework or listening to a lecture they find boring. Another reason why students multitask is that they simply do not see the negative impact it has on their coursework. Teenagers often overrate their abilities. The seemingly tiny distractions, however, result in a constant need to switch focus and sort out information, injuring the brain by overuse and making the process inefficient.

However, the effects of multitasking are not entirely negative. The research conducted by HKU indicates that people who routinely multitask are able to use their senses in conjunction(结合)more easily. Other research also shows that multitasking has a positive effect on the ability to pass judgment and solve problems quickly and efficiently.

32. What problem do students have when doing homework?

---

33. How does multitasking influence students' study?

---

34. Please decide which part is false in the following statement, then underline it and explain why.

**Students choose to multitask even though they are aware that they might get distracted.**

---

35. What measure (s) can you take to avoid your multitasking? Why? **(In about 40 words)**

---

## 第二节（15 分）

36. 假设你是红星中学学生会主席李华。你校将在春节期间举行中外学生联欢会。请你用英文写一封邮件通知交换生，内容包括：

1. 目的与安排；

2. 报名方式。

注意: 1. 词数 100 左右；

2. 开头和结尾已给出, 不计入总词数。

Dear friends,

---

---

---

---

---

---

Sincerely,

Li Hua

## 参考答案

### 第一部分：知识运用（共两节，30分）

#### 第一节 完形填空（共10小题；每小题1.5分，共15分）

阅读下面短文，掌握其大意，从每题所给的A、B、C、D四个选项中，选出最佳选项，并在答题卡上将该项涂黑。

1. A 2. B 3. C 4. B 5. A 6. D 7. C 8. D 9. B 10. C

#### 第二节 语法填空（共10小题；每小题1.5分，共15分）

11. Using 12. argument 13. has become

14. what 15. were scheduled 16. for

17. as##when 18. would be destroyed 19. whose 20. which

### 第二部分：阅读理解（共11小题；每小题2分，共22分）

21. D 22. B 23. C

24. A 25. D 26. C 27. B

28. C 29. D 30. A 31. A

### 第三部分 书面表达（共两节，27分）

#### 第一节 阅读表达（共4小题；第32、33题各2分，第34题3分，第35题5分，共12分）

32. The problem is using their devices for purposes other than learning./

They are faced with the problem of using their devices for purposes other than learning./

They use their devices for purposes other than learning.

33. Students often get distracted by using their phones or their laptops for unauthorized activities and even sacrifice their studies while multitasking.

34. Students choose to multitask even though they are aware that they might get distracted.

According to the passage, students choose to multitask because they are unaware that they might get distracted./

Another reason the students multitask is that they simply do not see the negative impact it has on their coursework./

According to the passage, many students are not aware that they might get distracted by multitasking./

According to the passage, they often overrate their abilities, unaware that they might get distracted by multitasking.

35. I would set my academic goal, which helps me find appropriate ways to focus on my study. Additionally, I would keep away from the devices causing multitasking. With them out of reach, I would not be distracted by the unnecessary information. /

I always switch off my phone while doing homework to avoid multitasking. Without access to the phone, I won't check the updates on social media from time to time. Besides, without the ocean of information from the phone, I can concentrate on my work well.

#### 第二节（15分）

36. Dear friends,

I am Li Hua, President of the Student Union. I am so glad to inform you of the upcoming Students' Party, where local and international students will have a wonderful time.

This cultural event aims to create a warm Spring Festival experience and foster cultural exchange. Scheduled to be held in our school auditorium from 19:00 to 21:00 on February 4, it features traditional Chinese dances and folk instrument performances. In addition, you can enjoy making and tasting jiaozi, a unique delicacy representing

the festival's essence.

Welcome to join us and feel the festive atmosphere! To sign up, please contact us via email at [party2024@hx.edu.cn](mailto:party2024@hx.edu.cn) by February 2.

Sincerely,

Li Hua
